

Smart Home

Smart Homes.

Affordable for All...

Home Smart Home !

Say hello to the home of tomorrow, where security, convenience and comfort brought by the world's latest technologies come together to wow you right in the midst of your home sweet home.

Security

Forgot to lock the home? V-ISMART home lets you lock your home right from your phone. Monitor your home like a hawk from anywhere in the world. Your home is always safer when its smarter.

Energy Efficiency

There's no other motivator like a smart home that motivates you to save power. In fact, you can save 15-20% of your normal monthly power consumption in V-ISMART home.

Convenience

Make your home do tasks on its own. No more having to remember turning off ACs and heaters. Or switching off water pumps. V-IS MART home can do all that on its own.

Comfort

Let your home make intelligent decisions for you. Next time it gets too hot in the room your AC will turn on, on its own. No need to reach out for the remote.

Futuristic

Can your home turn your living room into a movie theatre with a tap on the phone? Or welcome you with an evening scene when you return from work? Well V-IS MART home can.

Smart control from any location.

Control your home appliances from anywhere in the world. With simply a tap on the phone. See all the appliances in use in every room through your app. Turn them on or off at your convenience.

Safety. With no compromises.

V-ISmart's Smart lock will guard your home when you're away. Also, lock rooms separately through the app for safety inside the home. Use motion and occupancy sensors to monitor motion in any room remotely. V-ISmart app will alert you in the event of an intrusion.

Detailed Power stats at your fingertips

No more waiting till the end of the month to see your power bill. In V-ISmart Smart home, view your daily and monthly power consumption in real time. Track power consumed in individual rooms. See weekly trends in energy usage. Monitor power consumed by heavy duty appliances.

Universal remote control

No more hassles with 10 different remotes to control your appliances. Control all your IR remote controlled appliances like TV, Set-top box, AC etc. with a simple click on your smart phone.

Intelligent sensors for smarter tracking

Give more power to your smart home with intelligent sensors that can make smart decisions for you. Watch out for any LPG leakage. Switch on your AC at high temperature. Monitor pollution in your home. Detect any intrusion. They'll alert you on time.

Special features to automate mundane tasks

Set schedules to operate appliances at preset times. Create routines to control appliances on daily automatic schedules. Set workflows that control appliances based on surrounding conditions. Set auto-turn off timers to auto-turn off appliances after a preset time.

Scenes for any occasion

Create special scenes for special occasions using various home appliances. And turn them on with a tap on your phone. Be it an evening light scene after a hard day at work, or a birthday party scene for your child. V-IS MART home is at your service.

Smart entertainment for the smart user

Get your set-top box remote in your phone. Have your entertainment catalog with you on the go, wherever you may be. Set reminders for later programs to watch. Access streaming links if you can't afford to miss your favorite program. All from your phone.

Stay connected with your home. Always.

Control your home from anywhere in the world with V-IS MART home app.
